THE
University *of* Vermont
HEALTH NETWORK

Working together, we improve people's lives.

Our goal is to improve the health of people across Vermont and Northern New York by integrating patient care, education and research in a caring environment.

Our locally led, non-profit Network is working to preserve access to care that our patients and families need by focusing on wellness, in addition to disease prevention and treatment, while controlling costs.

OUR INTEGRATED HEALTH SYSTEM

- **Academic Medical Center, an alliance of UVM Medical Center, the Robert Larner MD College of Medicine at the University of Vermont and the UVM College of Nursing and Health Sciences.**

- **5 Community Hospital Affiliates**

PORTER MEDICAL CENTER KEY INITIATIVES

- **Prepare, plan and serve our community during the COVID-19 pandemic:** Porter's health care workers and staff worked tirelessly to provide essential services to our community while keeping each other and our visitors safe.

- **Preserve local access to clinical services:** In collaboration with The UVM Health Network, we implemented telemedicine to meet the needs of our patients.

- **Integration of care:** Implementation of the Epic electronic health record in our outpatient clinics — and soon in our inpatient and long-term care settings — will help us deliver on the promise of high-value, high-quality care here and across the entire UVM Health Network.

- **As a Critical Access Hospital leader in health care and payment reform,** we are active participants in changing the way care is delivered to focus on wellness as much as illness and to control costs with our partners at OneCare/Rise Vermont.

- **Commitment to caring for our most vulnerable citizens** at our Helen Porter Healthcare and Rehabilitation Center while fulfilling our vision to provide the full spectrum of care in support of our mission.
