

ENERGY EFFICIENCY AND CONSERVATION BLOCK GRANT PROGRAM

Funding Opportunity for Tribes

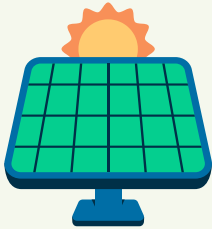

What is the EECBG Program?

The EECBG program provides formula funding directly to Tribes to implement projects relating to energy efficiency, reducing fossil fuel emissions, and cutting overall energy use and costs. These funds can be used in many ways to meet the unique needs of your community.

Why Tribes should apply?

1. EECBG Funding is noncompetitive! This means all federally recognized Tribes have already been allocated these funds from DOE.
2. No-Cost technical assistance (TA) is available to support the application process and execution of your project.
3. Alternative voucher option with a simplified application and administrative burden.

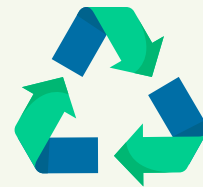

How do Tribes apply?

Step 1: Pre-Application

- I. Make sure you are registered with SAM.gov
- II. Register in FedConnect
- III. Complete the Pre-Award Information Sheet
- IV. Receive and email from the PAGE system inviting you to apply

Step 2: Complete your application

Applications are due by April, 30 2024!

Contact NIHB at environmentalhealth@nihb.org for more information or to request TA!

ENERGY EFFICIENCY AND CONSERVATION BLOCK GRANT PROGRAM

Funding Opportunity for Tribes

What technical assistance opportunities are available?

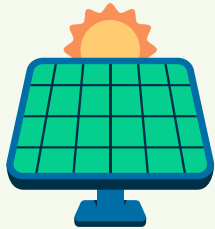

- NIHB Tribal Environmental Justice Technical Assistance Center, a program of the U.S. Environmental Protection Agency
- National Renewable Energy Laboratory TA to support development of an Energy Efficiency and Conservation Strategy, a requirement for grant applicants
- DOE Office of Indian Energy TA
- Project Blueprints: explore 13 blueprints for project ideas.

What can funds be used for?

Sample projects include:

- Efficiency upgrades
 - Electric vehicle infrastructure
 - Community solar
 - Recycling education programs
- and much more!

What is the voucher option?

The Voucher option offers two funding alternatives with a simplified application process, fewer start-up steps, and less administrative burden over time!

- 1- Equipment purchase and installation rebates
- AND/OR
- 2- A suite of technical assistance services

Applications are due by April, 30 2024!
