TITLE:

Approval of the First Interim Report.

HISTORY:

The Education Code requires each county office of education and all school districts to submit a financial report to their Governing Board twice a year. This report must include all income and expenses for the general fund and the report should be submitted within 45 days after October 31 and January 31 of each year. This report is referred to as the *Interim Report*.

The governing board must then certify whether or not the report is positive, qualified, or negative. A positive certification indicates that the county office can meet its financial obligations for the current fiscal year and the two subsequent fiscal years. A qualified certification indicates that the county office may not meet its financial obligations for the current fiscal year or two subsequent fiscal years. A negative certification indicates that the county office will be unable to meet its financial obligations for the remainder of the current fiscal year or subsequent fiscal year.

CURRENT PROPOSAL:

Attached is the required Interim Report along with a summary sheet that summarizes all income and expenses for the general fund. The Napa County Office of Education is fiscally sound, has a reserve well in excess of the required 3% and will be able to maintain required reserve levels in subsequent fiscal years even under the current conservative revenue projections.

FUNDING SOURCE:

All NCOE Funds

SPECIFIC RECOMMENDATION:

Recommend the Governing Board accept a positive certification of the Second Interim Report.

Part I - General Administrative Share of Plant Services Costs

California's indirect cost plan allows that the general administrative costs in the indirect cost pool may include that portion of plant services costs (maintenance and operations costs and facilities rents and leases costs) attributable to the general administrative offices. The calculation of the plant services costs attributed to general administration and included in the pool is standardized and automated using the percentage of salaries and benefits relating to general administration as proxy for the percentage of square footage occupied by general administration.

A. Salaries and Benefits - Other General Administration and Centralized Data Processing

- 1. Salaries and benefits paid through payroll (Funds 01, 09, and 62, objects 1000-3999 except 3701-3702)
(Functions 7200-7700, goals 0000 and 9000) 3,152,307.36
- 2. Contracted general administrative positions not paid through payroll
 - a. Enter the costs, if any, of general administrative positions performing services ON SITE but paid through a contract, rather than through payroll, in functions 7200-7700, goals 0000 and 9000, Object 5800. 0.00
 - b. If an amount is entered on Line A2a, provide the title, duties, and approximate FTE of each general administrative position paid through a contract. Retain supporting documentation in case of audit.

B. Salaries and Benefits - All Other Activities

- 1. Salaries and benefits paid through payroll (Funds 01, 09, and 62, objects 1000-3999 except 3701-3702)
(Functions 1000-6999, 7100-7180, & 8100-8400; Functions 7200-7700, all goals except 0000 & 9000) 32,087,894.29

C. Percentage of Plant Services Costs Attributable to General Administration

(Line A1 plus Line A2a, divided by Line B1; zero if negative) (See Part III, Lines A5 and A6) 9.82%

Part II - Adjustments for Employment Separation Costs

When an employee separates from service, the local educational agency (LEA) may incur costs associated with the separation in addition to the employee's regular salary and benefits for the final pay period. These additional costs can be categorized as "normal" or "abnormal or mass" separation costs.

Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board policy. Normal separation costs are not allowable as direct costs to federal programs, but are allowable as indirect costs. State programs may have similar restrictions. Where federal or state program guidelines required that the LEA charge an employee's normal separation costs to an unrestricted resource rather than to the restricted program in which the employee worked, the LEA may identify and enter these costs on Line A for inclusion in the indirect cost pool.

Abnormal or mass separation costs are those costs resulting from actions taken by an LEA to influence employees to terminate their employment earlier than they normally would have. Abnormal or mass separation costs include retirement incentives such as a Golden Handshake or severance packages negotiated to effect termination. Abnormal or mass separation costs may not be charged to federal programs as either direct costs or indirect costs. Where an LEA paid abnormal or mass separation costs on behalf of positions in general administrative functions included in the indirect cost pool, the LEA must identify and enter these costs on Line B for exclusion from the pool.

A. Normal Separation Costs (optional)

Enter any normal separation costs paid on behalf of employees of restricted state or federal programs that were charged to an unrestricted resource (0000-1999) in funds 01, 09, and 62 with functions 1000-6999 or 8100-8400 rather than to the restricted program. These costs will be moved in Part III from base costs to the indirect cost pool. 14,784.00
Retain supporting documentation.

B. Abnormal or Mass Separation Costs (required)

Enter any abnormal or mass separation costs paid on behalf of general administrative positions charged to unrestricted resources (0000-1999) in funds 01, 09, and 62 with functions 7200-7700. These costs will be moved in Part III from the indirect cost pool to base costs. If none, enter zero. 0.00

Part IV - Carry-forward Adjustment

The carry-forward adjustment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect cost rate approved for use in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates

the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the approved rate was based.

Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs, or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.

A. Indirect costs incurred in the current year (Part III, Line A8)	4,935,318.44
B. Carry-forward adjustment from prior year(s)	
1. Carry-forward adjustment from the second prior year	25,064.42
2. Carry-forward adjustment amount deferred from prior year(s), if any	0.00
C. Carry-forward adjustment for under- or over-recovery in the current year	
1. Under-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus (approved indirect cost rate (11.19%) times Part III, Line B19); zero if negative	0.00
2. Over-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus the lesser of (approved indirect cost rate (11.19%) times Part III, Line B19) or (the highest rate used to recover costs from any program (11.33%) times Part III, Line B19); zero if positive	(1,514,563.79)
D. Preliminary carry-forward adjustment (Line C1 or C2)	(1,514,563.79)
E. Optional allocation of negative carry-forward adjustment over more than one year	
Where a negative carry-forward adjustment causes the proposed approved rate to fall below zero or would reduce the rate at which the LEA could recover indirect costs to such an extent that it would cause the LEA significant fiscal harm, the LEA may request that the carry-forward adjustment be allocated over more than one year. Where allocation of a negative carry-forward adjustment over more than one year does not resolve a negative rate, the CDE will work with the LEA on a case-by-case basis to establish an approved rate.	
Option 1. Preliminary proposed approved rate (Part III, Line D) if entire negative carry-forward adjustment is applied to the current year calculation:	5.91%
Option 2. Preliminary proposed approved rate (Part III, Line D) if one-half of negative carry-forward adjustment (\$-757281.90) is applied to the current year calculation and the remainder (\$-757281.89) is deferred to one or more future years:	7.22%
Option 3. Preliminary proposed approved rate (Part III, Line D) if one-third of negative carry-forward adjustment (\$-504854.60) is applied to the current year calculation and the remainder (\$-1009709.19) is deferred to one or more future years:	7.66%
LEA request for Option 1, Option 2, or Option 3	1
F. Carry-forward adjustment used in Part III, Line A9 (Line D minus amount deferred if Option 2 or Option 3 is selected)	(1,514,563.79)

Approved indirect cost rate: 11.19%

Highest rate used in any program: 11.33%

Note: In one or more resources, the rate used is greater than the approved rate.

Explanation:
(required if NOT met)

ADA reporting at First Interim for Napa COE's Community School did not take into account the 3-year rolling average. This has been corrected in the ADA projections provided in the Second Interim. Napa districts have seen a slight decline in enrollment, but a significant increase in attendance ratios resulting in higher County Operations Grant ADA than expected.

S8. Status of Labor Agreements

Analyze the status of all employee labor agreements. Identify new labor agreements that have been ratified since first interim projections, as well as new commitments provided as part of previously ratified multiyear agreements; and include all contracts, including all administrator contracts (and including all compensation). For new agreements, indicate the date of the required board meeting. Compare the increase in new commitments to the projected increase in ongoing revenues, and explain how these commitments will be funded in future fiscal years.

If salary and benefit negotiations are not finalized, upon settlement with certificated or classified staff:

The county office of education must determine the cost of the settlement, including salaries, benefits, and any other agreements that change costs, and provide the California Department of Education (CDE) with an analysis of the cost of the settlement and its impact on the operating budget.

The CDE shall review the analysis relative to the criteria and standards, and may provide written comments to the president of the governing board and the county superintendent of schools.

County Board Self-Evaluation

Why do county boards of education evaluate themselves? Governing boards, be they a public board or a nonprofit board, have a fundamental responsibility to evaluate their effectiveness.

CCBE believes board self-evaluation can strengthen board performance.

1. *County boards evaluate themselves to demonstrate that county leadership is committed to continuous improvement at every level - beginning at the top.* Counties are learning organizations in two ways. First, their mission is to help children learn. Equally important though is that counties *need to learn*. In order for counties to be highly effective, they must invest in the professional development of every adult in the system, including the county governing board.
2. *County boards evaluate themselves to identify specific ways the board can improve its governance work.* The board can evaluate three areas that are all interconnected. First, the board can evaluate how well they function internally. For example: “How effective are communications among board members and with the county superintendent?” Second, the board can evaluate how well it fulfills its governing responsibilities to the county. For example: “How well do we adopt budgets aligned to county goals? Third, the board can evaluate to what extent its governance decisions help the county office achieve its long-range goals? For example: Did we meet our target of improving attendance rates?”
3. *County boards evaluate themselves to demonstrate accountability to the community that elected them.* County board members are elected by the community. The board has an obligation to report back to the community on how well the board and the county office of education are functioning.

Instructions

1. The board self-evaluation form should be given to each county board member.
2. County board members complete the board self-evaluation and submit their responses.
3. The board can designate a board member to tabulate responses, or the board can ask the superintendent to assign staff to do this work.
4. The board president and superintendent must place board self-evaluation on the agenda of an open session of the county board of education meeting.
5. The summary results should be provided to board members with other board agenda materials.

Preparing for the Discussion

1. Tabulate the results.

Tally the responses identifying the total number of times each rank was selected for each item.

2. Place ‘Board Self Evaluation’ on the agenda for a future county board meeting.

The county board could place the discussion of these results on the agenda of any regular board meeting. However, fully reviewing these results can take time, and the county board may be best served by scheduling a special governance study session – *in open session* - to discuss the results.

County Board Self-Evaluation

3. The conversation at the meeting.

The board can improve its cohesiveness by discussing the range of responses, learning each member's rationale for their ratings. As the board discusses these results, remember a few critical points.

- The tabulation displays a range of perceptions, *not facts*.
- The benefit of self-evaluation is not in the results, but in the *quality of your conversation* in response to the results.
- You can't talk about everything – there's too much. *Focus* on what matters most.
- Each member should *try to understand* the views of other board members. It's okay to differ in opinion; you don't always need agreement. *You do need understanding*. In some cases, the board may find that members have different expectations for what deserves an 'Almost always' vs. an 'often', but that there is general agreement on how the board is performing.

Process for the conversation

Step 1: Confirm the perceived strengths.

Identify all items in which a majority of the board *ranked at item as "often" or almost always*.

Step 2: Confirm the perceived areas for growth.

Identify all items in which a majority of the board *ranked at item as "less often or "rarely*.

Step 3: Identify areas where perceptions are mixed.

Identify items where the highest and lowest ratings differ by 2 or more. Look for:

- Distribution - three or all four of the ratings are applied to an item.
- Splits – a '0' in 'Often' or 'Less Often' with votes on either side.

Step 4: Focus.

From the results from steps 2 and 3 above, the board should select - through consensus or vote - *a limited number* of areas [three to five] to focus the discussion. The board should answer the question: *Which areas of improvement will be most beneficial to the county office of education and the county board?*

Step 5: Set goals.

Set specific, measurable, time-bound goals for improving board performance in each area.

Step 6: Integrate board performance into the regular agenda.

Clarify when progress towards the board's improvement goals will be reviewed at future board meetings.
