

Research Participation Opportunity

What is this Research about?

We plan to interview women who experienced Postpartum depression (PPD) recently (within the last 5 years) and hope to hear about their experiences with PPD and their relationship with their healthcare provider throughout treating their PPD.

Requirements for Participation:

- Must be at least 18 years old when you experienced PPD
- Must have seen a healthcare professional before and after giving birth
- Primarily speak English
- Cannot currently be pregnant or in prison.
- Must not currently have PPD

How to Participate:

Scan the QR code above and fill out the survey. If you qualify for the study, Alexandra Karpiak will reach out to you via email within 2 weeks for a virtual interview.

Please note:

Participation is voluntary and your information will be confidential. The participant can cease participation at any time. All data will be destroyed in May 2028.
