Use of cookies

Cookies are small text files that are placed on your computer or other device by websites that you visit. They are widely used in order to make websites work, or work more efficiently, as well as to provide information to the owners of the website.

General information about the cookies used

This Website uses cookies to improve your experience on the website, to analyse your use of the Website via Jetpack and to enable social interaction features with supported external social networking websites.

When you visit the AER Website, cookies will collect the name of the internet provider, the IP address of the user, the website that has referred the user to the AER Website, data and time. This data is collected anonymously and exclusively for statistical usage.

If you continue to actively use the Website and do not actively object to the use of cookies, you agree to our use of cookies and such agreement will be stored in your browser, so that the information does not have to be repeated on every page of the Website. Should the consent be missing in your browser (e.g. if you deleted your cookies), the “cookie banner” with privacy information will appear again the next time you visit the Website.

Share on social networks

AER makes use of a social plug-in to enable you to share Website's information on Twitter through a "Share" button.

For data privacy reasons, AER deliberately opted against utilising direct social network plug-ins on our Website. Instead, AER employs an alternative technical solution that allows you to decide whether to transmit data to the social network operators and when. Thus when you visit the Website, data are never automatically transmitted to a social network. Only when you actively click on the respective button yourself will your web browser connect to the servers of the social network, i.e. clicking on elements then clicking on the social network's icon indicates your consent to your browser connecting to the servers of the social network and sending usage data to that social network operator, whether or not you are a subscriber of such social network.

AER has no influence over the nature or scope of data that social networks may then gather. For information regarding the purpose and scope of data collection, further processing and use of data by social networks and regarding your data privacy rights and relevant configuration settings, see the social networks' respective data privacy advisories.
